

KOROCLEAN

FOR HIGH-GRADE INDUSTRIAL FLOORS

DESCRIPTION

The **KOROCLEAN** procedure offers a technically and economically most reasonable alternative to the customary final site cleaning before putting into operation.

APPLICATION

The **KOROCLEAN** procedure is qualified for KORODUR industrial floors in any field of use as well as for any other cementitious industrial floor.

It renders to industrial floors in industrially used storage and production areas a high-grade, dust-free and easy to clean surface.

For sales and presentation rooms as well as for administrative areas, the **KOROCLEAN** procedure offers a highly effective and technically advantageous flooring solution.

The surface finish is long-lasting and highly stress resistant. On request it can be produced with optical appearance from silky sheen to high gloss.

The **KOROCLEAN** - technique allows to meet any demand to the design of a modern industrial floor.

ADVANTAGES

- reduction of colour irritations
- enhances colour and texture appearance
- light reflection – on request from silky sheen to high gloss
- high-grade optical appearance
- efficacious cleaning
- easy maintenance
- agreeable in use

Superior performance, technical- and optical-wise.
