

Dear business partner,

The new "Korodur Report" is online.

The war in Ukraine is not coming to an end and thus the distress on the Ukrainian population. The economic consequences of this war will probably be more far-reaching than it appears at first glance. At least for the near future, the downward spiral of scarce raw materials, interrupted supply chains, increasing prices for energy, raw materials and intermediate products, and high inflation will continue.

As a company, we support regional relief efforts for Ukraine. We are also proud of the private voluntary commitment of our colleagues.

Let us now present you a few selected KORODUR topics.

Have a confident day and enjoy reading.

Your KORODUR Team

NEWS
