

**KORODUR.**  
The world-wide  
concept for industrial  
floors.

Dear KORODUR friends,

It's time again for exciting insights and inspiring news!

In our new report we would like to take you on an exciting journey through our KORODUR world.

From successes in the industrial flooring sector to our brand-new homepage, which is now even more user-friendly and informative. There is a lot to discover!

We cordially invite you to join us on this journey and experience the world of KORODUR. Enjoy reading and exploring!

Best regards,

Your KORODUR Team

## NEWS

### Relaunch of our website

Since Monday, September 25, 2023, our website has been online in a new design. It has been updated to meet the latest standards. The content of the new site is organized into six categories: KORODUR, Areas, Products, References, Service and Contact. Along with a sophisticated design, it also offers new features. For example, an internal search engine has been integrated to provide comprehensive information. We invite you to explore our new website at [www.korodur.de](http://www.korodur.de).

## KORODUR INDUSTRIAL FLOOR

**KORODUR's industrial floor forms the foundation for  
the new Zalando logistics center in Poland**

### New Zalando Logistics Center relies on KORODUR industrial floors

During the construction of its new logistics center in Bydgoszcz, Poland, in 2022, online fashion retailer Zalando exclusively opted for **NEODUR HE 3**, KORODUR's cementitious industrial floor. Covering an impressive area of 130,000 square meters, this hard aggregate floor serves as the robust foundation for Zalando's warehouses and high-bay storage facilities. The high wear resistance of the KORODUR floor perfectly meets the requirements of industrial floors in the logistics sector.

## Metal chain against industrial floor

### Renovation at Volvo Trucks maintenance workshop in Israel with KORODUR products

For the renovation in a Volvo Trucks maintenance workshop in Tel Aviv, the highly wear resistant industrial floor **NEODUR HE 60 rapid** metallic from KORODUR was successfully applied. Due to its easy application and quick drying times, a swift renovation was achieved, making the area walkable within a few hours and fully usable after 24 hours. NEODUR HE 60 rapid metallic is ideal for demanding coatings and renovations in car parks, workshops and high-bay warehouses where durable resistance is required.

## KORODUR RAPID SET

### Bicycle-friendly lane in Schwandorf, Germany

### Safe cycling - thanks to MORTAR MIX

Due to our innovative **MORTAR MIX** technology, the city of Schwandorf in Germany has now a new, bicycle-friendly lane on the marketplace. This solution not only creates a durable road surface but also significantly enhances safety and comfort for cyclists.

## RAPID CONCRETE SYSTEMS

### Road repair over the weekend

Repair with Rapid Set Concrete at one of the largest ports in the world: Port of Rotterdam.

Over the weekend the repair of 7 concrete slabs (approx. 65 m<sup>3</sup> concrete) took place on a road in the Maasvlakte port area. **Rapid Set Concrete** was supplied by Van de Haterd and installed by Van Hattum en Blankevoort. **Rapid Set Concrete** allows the repaired roadway to be reopened for heavy traffic in the port area just 2 hours after installation. This means that longer downtimes can be avoided and major repairs can be managed over the weekend. [For more images, please visit LinkedIn.](#)

## 3D CONCRETE PRINTING

### 10 years of innovation

## CyBe celebrates 10 years of 3D Concrete Printing

We warmly congratulate our business partner [CyBe](#) on their 10th anniversary! Over this decade, CyBe has continuously pushed the boundaries of the construction industry with its 3D concrete printing technology. We value our successful partnership and look forward to many more years of collaboration. Together, we will continue to delight our customers with cutting-edge solutions in the field of 3D concrete printing and to exceed their requirements.

Congratulations, CyBe!
